

MIRABELLE

HAPPY STRUCTURE - **MIRABELLE**

4 legs, 2m platform height

MIRABELLE doubles the excitement with two slides in one. It's not just a double slide, it's a playful hub full of surprises. At ground level, sound panels and interactive features invite curious hands. Kids can climb up in a variety of ways, choosing their own path to the top. At the center, a gathering table offers a spot to rest, create, or connect. The whole structure invites kids to explore, imagine, and play, with every step leading to the next fun moment.

2x Open Slide

Two stainless steel slides starting from 2 m high offers an exciting descent that builds balance, spatial awareness, and core strength. Kids can race down using both slides.

Access Route with Grips & Rope

Equipped with climbing grips and reinforced rope, this access route develops strength, coordination, and problem-solving. Kids learn to navigate vertical movement while taking turns and supporting one another.

Access Route with Steel Bars

Colorful stainless steel bars challenge children's balance, focus, and body control. The open design encourages anticipation and interaction, adding a social element to physical play.

Top Platform

This transition space connects climbing and sliding. Children pause here to observe, plan, and interact with others. It supports social play and decision-making before continuing the activity flow.

Abacus Play

HDPE spinning panels on a horizontal bar allow kids to explore motion and patterns. The tactile experience supports motor skills and encourages collaborative or parallel play.
