

HAPPY STRUCTURES

MORE THAN SLIDES

These are not your average playground slides. Designed by Bananaz Studio and built by OSOM, our playslides are bold, sculptural structures that invite climbing, crawling, socializing, and, of course, sliding.

Each one is a multi-sensory experience — with play features above, below, and all around — made to spark curiosity and movement at every level. Whether in a public park or an urban square, they turn any space into a mini adventure.

COMPACT DESIGN

Compact footprint, maximum fun, smartly designed to fit under 65 sqm. These all-in-one units deliver climbing, sliding, sensory, and social play.

ACTIVE PLAY

Play that builds skills such as physical strength, balance, and focus through varied climbing routes and active play challenges. Engaging top platforms at 1.5 m and 2 m heights.

SENSORY PLAY

Multi-sensory and inclusive, featuring tactile panels, color filters, rotating windows, and rope elements. Designed to engage children of diverse abilities.

BUILT TO LAST

Durable and customizable, made from high-quality materials to ensure long-lasting appeal and design flexibility.

SOCIAL INTERACTION

Promotes collaboration and connection as children explore, play, and invent games together.

SCULPTURAL AESTHETIC

Bold, artistic designs that double as landmarks, adding character and beauty to any space.

ELMA

ELMA

Toddlers adventure slide

Platform height 1.50m

ELMA is specially designed for the youngest adventurers. Standing at 1.50 meters, it offers a safe and exciting introduction to sliding. Easy climbing routes lead to the top, while a cozy play area underneath invites toddlers to explore, discover, and socialize.

ELMA

Toddlers adventure slide

Highlights:

- Slides
- Climbing Nets & Grips
- Windows & Rotating Plates
- Abacus Plates

Product Information:

Dimension L x W x H	4.50m x 4.60m x 2.50m
Age group:	2 - 6 years
Max falling height:	1.50m

Play activities:

ELMA

Toddlers adventure slide

Colour options available for:

Main Slide Structure:	✓
Suspended Play Net:	✓
Climbing Grips:	✓
Coloured Windows:	✓
Rotating Window:	✓
Abacus Plates:	✓

Open Slide

A stainless steel slide starting from 1,5 m high offers an exciting descent that builds balance, spatial awareness, and core strength. Taking turns promotes patience and social awareness.

Access Route with Grips & Rope

Equipped with climbing grips and reinforced rope, this access route develops strength, coordination, and problem-solving. Kids learn to navigate vertical movement while taking turns and supporting one another.

Access Route with Steel Bars

Colorful stainless steel bars challenge children's balance, focus, and body control. The open design encourages anticipation and interaction, adding a social element to physical play.

Top Platform

This transition space connects climbing and sliding. Children pause here to observe, plan, and interact with others. It supports social play and decision-making before continuing the activity flow.

Rotating window

A circular HDPE panel that opens and closes like a window, perfect for imaginative scenarios. It helps children understand visibility, surprise, and simple mechanics.

Coloured Window

Transparent polycarbonate panels in bright colors shift children's visual perspective. Looking through them inspires wonder, imaginative play, and shared discoveries.

Abacus Play

HDPE spinning panels on a horizontal bar allow kids to explore motion and patterns. The tactile experience supports motor skills and encourages collaborative or parallel play.

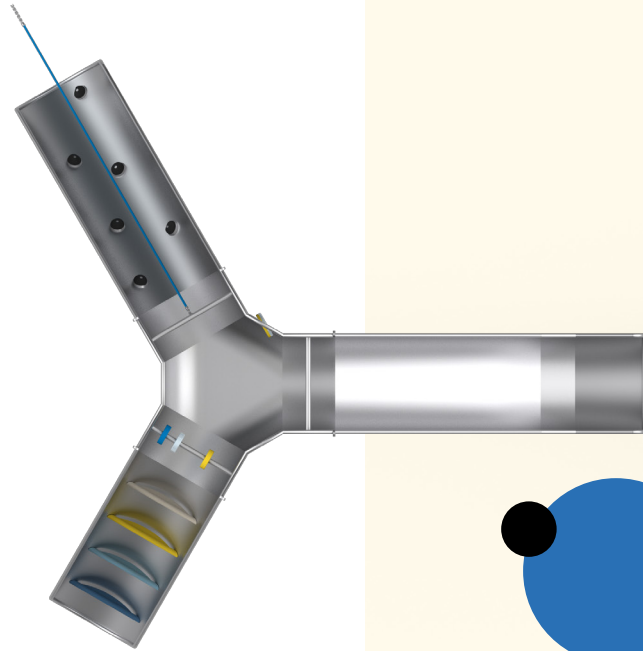

Suspended Play Net

This rope net forms a flexible base for resting, wobbling, or gentle play. It offers a relaxing, slightly active area for social interaction and balance training.

MOMO

MOMO

Toddlers adventure slide

Platform height 1.50m

MOMO redefines what a slide can be. With a 1,5-meter platform height, it's not just a slide - it's a dynamic playground in itself. Ground-level panels feature sound elements and interactive play items, while multiple climbing routes offer a fun challenge. The entire structure encourages kids to climb, explore, connect, and then slide. Each step sparking the next adventure.
